

Please keep Klove on the radio (94.3).

I am a christian and only listen to this station, please don't let another station over ride it. I get my best news from this station. Klove does a service to community because you don't have to monitor your children listening to it. There is no 7 second delay needed on this station. You can hear about free functions going on in your area by listening to Klove and if you allow this service to be disrupted then nobody will hear about christian happenings. I need Klove in my community, please don't take it away.
